1. Planning	Incomplete dive plan, Inadequate risk assessment	ЗН	 Develop comprehensive dive plan with all team members Conduct thorough risk assessment prior to diversity and update risk management plate regularly Schedule planning meetings in a controlled environment Catalogue environmental and dive-specific hazers Assign roles and responsibility clearly Assess and inconstrates with the unditions Establish energency proclutes Ensure commentication envices are operational Ensure commentication environment of dive activities 	2M
2. Equipment Preparation	Equipment malfunction, leavroper gear setup	2	 Conduct precisive equipment checks thoroughly Usure of equipment is maintained regularly by certified personnel Verly, or eer function of all breathing apparatus bleck communication systems thoroughly before departure Evsure all divers are familiar with their own equipment Set up redundant systems where possible Keep spares and tools on board for on-site repairs Train divers on recognising equipment failures Ensure compatibility of all individual and team diving gear Label all equipment clearly with diver names 	1L
3. Briefing	Miscommunication, Lack of clarity	2M	 Conduct detailed and systematic briefing covering dive plan Encourage questions to clarify understanding Use visual aids to demonstrate procedures Establish clear hand signals for underwater communication Confirm all divers understand emergency signals Designate communication leader for each team Ensure briefing is conducted in a quiet environment Structure briefing to allow feedback from all divers 	1L

EMERGENCY RESPONSE – CALL 000 FOR EMERGENCIES

Ensure to have an Emergency Management Plan in place as well as adequate numbers of trained first aid staff with easy access to fully stocked first aid kits, rescue equipment, material safety data sheets, adequate access to emergency communication equipment and fire-fighting equipment suitable for all classes of fire and ignition sources.
