| | Method Statement (SWMS) or hit er-level authorisation is required. |
| 3H | Review and approve additional controls to the last arts. Senior supervisor sign-off needed. |
| 2M | Ensure all nominated controls are in prace and efficiency roceed with caution; monitor conditions. |

| Minor | First-aid only, no lost time | negligible delay | Isolated non-conformance |
| Insignificant | No injury | no schedule impact | Deviation caught and corrected on site |

Notes on Hierarchy of Controls:

Remember to apply controls in the preferred order shown by the coloured pyramid:

- 1. Eliminate
- Substitute
- Isolate
- 4. Engineering
- 5. Administrative
- 6. PPE

Always document **why** a lower-order control is accepted if elimination or substitution is not reasonably practicable.

| 1. Preparation | Uneven surface, Obstructions | ЗН | - Perform a site inspection beforehand - Remove visible obstructions - Communicate hazard areas to all workers - Use hazard signs where necessary - Schedule work during dayling hours - Ensure appropriate footwear wall workers - Train workers on azars recognism - Assign an energy for gurance - Define clear projection states and the second states are second some sec | 2M |
| 2. Site Inspection | Debris, Loose soil | | - Conduit thorough dead removal - conduit thorough dead removal - conduit check or new debris - Implicate soil stabilisation techniques - reate barriers around unstable areas - Use appropriate safety protocols for debris handling - Train workers in inspecting and assessing soil stability - Utilise 'No Walk' zones for areas under inspection - Ensure equipment is available for debris removal - Document inspections - Monitor site conditions continuously | 2M |
| 3. Marking Hazard Zones | Inadequate signage, Confusion about boundaries | ЗН | - Use highly visible signage and tape - Clarify boundaries during pre-start meetings - Ensure signs are consistent with Australian Standards - Update signage as conditions change - Train personnel in understanding hazard zone markings - Provide site maps to workers - Use GPS for accurate boundary mapping - Regularly maintain and replace worn signage | 1L |
