

Career Guidance Confronting Emotional Distress | SAFE WORK METHOD STATEMENT (SWMS)

TASK OR ACTIVITY: Career Guidance Confronting Emotional Distress

Business Name:	ABN:	SWMS#
Business Address:		
Contact Person:	Phone:	Email:

THIS SAFE WORK METHOD STATEMENT IS APPROVED BY THE PCBU OF THE PROJECT

Under the Work Health and Safety Regulation (WHS Regulation), a person conducting a business or undertaking (PCBU) is required to ensure that a safe work method statement (SWMS) is prepared before the proposed work starts.

Full Name:		
Signature:	Title:	Date:
Details of the person(s) responsible for ensuring implementation, monitoring compliance of the SWMS as well as reviews and modifications of the SWMS.		
Full Name:	Title:	Phone:

ALL PERSONNEL PARTICIPATING IN ANY ACTIVITY ON THIS SWMS MUST HAVE THE FOLLOWING COMMUNICATED

Safety meetings or toolbox talks will be scheduled in accordance with legislative requirements to first identify any site hazards, then to communicate those hazards and then to further take steps to either eliminate or control each hazard.

If an incident or a near miss occurs, all work must stop immediately. Depending on the severity of the incident, a meeting will be called with all workers to amend the SWMS if required. The meeting may also be an educational opportunity.

Any changes made to the SWMS after an incident or a near miss must be approved by the Person Conducting Business or Undertaking and communicated to all relevant personnel.

The SWMS must be kept and be available for inspection at least until the work is completed. Where a SWMS is revised, all versions should be kept. If a notifiable incident occurs in relation to which the SWMS relates, then the SWMS must be kept for at least two years from the occurrence of the notifiable incident.

NAME OF ALL RELEVANT PERSONNEL WHO HAVE BEEN CONSULTED AND COMMUNICATED TO IN THE DEVELOPMENT AND APPROVAL OF THIS SWMS

Mandatory Qualifications and Training

JOB STEP	POTENTIAL HAZARDS	IR	CONTROL MEASURES	RR
SPECIFIC WORK STEPS	HAZARDS THAT MAY ARISE	INITIAL RISK	SPECIFIC MEASURES TO BE PUT IN PLACE TO ELIMINATE OR CONTROL THE RISKS	RESIDUAL RISK
1. Preparation	Emotional Distress, Lack of Motivation, Confusion	3H	<ul style="list-style-type: none"> - Develop and implement a clear communication channel for sharing concerns or experiences. - Encourage active listening techniques during discussions to ensure understanding and empathy. - Arrange regular debriefing sessions to discuss emotional responses and offer support. - Provide access to professional counselling services for guidance counsellors and students when needed. - Schedule regular breaks during sessions to prevent burnout and alleviate pressure. - Promote self-care practices among guidance counsellors to maintain their mental well-being. - Create an environment where expressing emotions is considered normal and acceptable. - Offer training on recognising signs of severe emotional distress in oneself and others. - Use motivational interviewing techniques to enhance engagement and motivation levels. - Clarify session goals and outcomes to minimise confusion and set realistic expectations. - Implement a feedback mechanism that allows individuals to voice concerns or suggest improvements. - Foster a positive and supportive workplace culture that values mental health and well-being. 	2M
2. Identifying Client Needs	Miscommunication, Misinterpretation, Distress Visualization	3H	<ul style="list-style-type: none"> - Conduct active listening workshops to improve communication skills among staff, minimising the risk of miscommunication. - Use clear and simple language in written materials provided to clients to avoid misinterpretation. - Implement a standardised questionnaire to ensure consistency in gathering client information and needs. - Schedule regular debriefing sessions for staff to discuss challenging cases and strategise on approach, reducing potential distress. - Train staff in recognising body language and non-verbal cues to enhance understanding and prevent misinterpretation. - Maintain an up-to-date database of resources and referral options for clients experiencing significant emotional distress. - Develop role-playing scenarios during staff training to practice managing clients who exhibit signs of emotional distress. - Utilise empathetic communication techniques to create a supportive environment, reducing anxiety or misunderstanding. - Initiate regular professional supervision sessions to provide guidance and support for staff dealing with emotionally charged situations. - Incorporate mental health first aid training as a compulsory part of employee development to better manage distress visualisation. 	2M

Overwhelm, Indecision	3H	<ul style="list-style-type: none"> - Break down the action plan into smaller, manageable tasks to prevent feeling overwhelmed. - Encourage regular check-ins with a supervisor or mentor to maintain focus and accountability. - Utilise decision-making frameworks to assist individuals in evaluating options and making timely decisions. - Incorporate stress-reduction strategies such as mindfulness or deep breathing exercises into daily routines. - Establish realistic deadlines and priorities to help manage workload effectively. - Offer access to counselling or support services for individuals experiencing anxiety or stress. - Create a supportive environment where employees feel comfortable seeking help or asking for clarification. - Implement regular feedback sessions to provide positive reinforcement and address challenges. - Encourage the use of visual aids, such as charts or lists, to keep track of progress and tasks.
Overwork, Lack of Focus	2M	<ul style="list-style-type: none"> - Encourage employees to take regular breaks to prevent burnout and maintain productivity. - Implement time management techniques, such as the Pomodoro technique, to help individuals stay focused. - Prioritise tasks and delegate responsibilities to ensure workload is distributed evenly. - Encourage the use of productivity tools or apps to streamline workflows and reduce clutter. - Provide training on time management and prioritisation skills to help employees work more efficiently. - Establish clear boundaries between work and personal time to prevent overwork. - Offer flexible work arrangements, such as remote work or flexible hours, to accommodate individual needs. - Encourage open communication and collaboration among team members to share resources and support. - Implement a system for tracking and managing tasks to ensure nothing falls through the cracks. - Provide access to resources or training on productivity and time management.

SIGNATORIES OF THE SAFE WORK METHOD STATEMENT

The signed and dated personnel listed below have cooperated in the consultation and development of this Safe Work Method Statement which has been approved by the Person/s Conducting a Business or Undertaking (PCBU). In signing this Safe Work Method Statement each individual acknowledges and confirms that they have read this SWMS in full, having raised any questions for items on this Safe Work Method Statement that require clarification, and confirms that they are competent, skilled and knowledgeable for the task assigned to them. Every person acknowledges that they have received the relevant training and qualifications where required, before carrying out any work contained in this Safe Work Method Statement. By signing this Safe Work Method Statement each individual agrees to work safely, to follow any safe work instructions which are provided, and agrees to use all Personal Protective Equipment where appropriate.

Worker Name	Signature	Date

SAFE WORK METHOD STATEMENT MONITORING AND REVIEW

The SWMS must be reviewed regularly to make sure it remains effective and must be reviewed (and revised if necessary) if relevant control measures are revised. The review must be carried out in consultation with workers (including contractors and sub-contractors) who may be affected by the operation of the SWMS and their health and safety representatives who represent that work group at the workplace.

When the SWMS has been revised the PCBU must ensure that all persons involved with the work are advised that a revision has been made and how they can access the revised SWMS, including all persons who will need to change a work procedure or system as a result of the review are advised of the changes in a way that will enable them to implement their duties consistently with the revised SWMS. All workers that will be involved in the work must be provided with the relevant information and instruction that will assist them to understand and implement the revised SWMS.

The SWMS must be monitored regularly for the effectiveness of ensuring hazard controls are effective in reducing the risk of incidents, keeping the workplace safe for all personnel. The person responsible for monitoring the effectiveness of the Safe Work Method Statement should employ a multi-faceted approach which includes but is not limited to:

1. Spot Checks.
2. Consultation with workers, contractors and sub-contractors.
3. Internal audits on a continual basis.

An approach of continuous improvement, promptly recording inconsistencies or deficiencies, followed up by immediate corrective action and consultation with all relevant personnel ensures that the PCBU is consistently developing ever-improving systems of safe work principles.

SAFE WORK METHOD STATEMENT REVIEW CHECKLIST

This Safe Work Method Statement Review Checklist is to be followed and used upon initial development of the SWMS to help ensure that all steps have been adequately taken before work commences. Think of this document as an internal audit review checklist before commencing work, and may form part of a Toolbox Talk (safety meeting) and may be used as an opportunity for education and training.

ITEMS WHICH MUST BE INCLUDED IN THE SWMS	COMPLETED	COMMENTS
The company details have been entered, including the project name and address.	<input checked="" type="checkbox"/>	
All relevant personnel consulted during the development of the SWMS.	<input checked="" type="checkbox"/>	
Name, signature, position and date signed of the person approving the SWMS.	<input type="checkbox"/>	
Specific personnel and qualifications, experience is noted in the SWMS.	<input checked="" type="checkbox"/>	
Provides a step-by-step process of tasks required to carry out the activity or task.	<input checked="" type="checkbox"/>	
Adequate risk assessment of any identified hazards has been completed.	<input checked="" type="checkbox"/>	
Foreseeable hazards are identified and documented for each step.	<input checked="" type="checkbox"/>	
Any hazards listed in any site risk assessments have been added to the SWMS.	<input checked="" type="checkbox"/>	
SWMS initial risk (IR) column as well as residual risk (RR) column completed.	<input checked="" type="checkbox"/>	
Check control measures added to the SWMS are the most effective selected.	<input checked="" type="checkbox"/>	
Responsible person is assigned and listed on the SWMS for the implementation of control measures.	<input checked="" type="checkbox"/>	
Permit or licenses requirements specified, such as Hot Work, Electrical Work, Work at Heights etc.	<input checked="" type="checkbox"/>	
SWMS identifies plant and equipment to be used.	<input checked="" type="checkbox"/>	
Details of inspection checks required for any equipment listed as noted on the SWMS.	<input checked="" type="checkbox"/>	
Describes any mandatory qualifications, experience, training or skills required to perform the work.	<input checked="" type="checkbox"/>	
Applicable personal protective equipment is selected on the SWMS.	<input checked="" type="checkbox"/>	
Reflects and documents any legislative references and/or Australian Standards.	<input checked="" type="checkbox"/>	
Identifies any hazardous substances used with specific control measures in line with any SDS.	<input checked="" type="checkbox"/>
