#### SAFE WORK METHOD STATEMENT REVIEW CHECKLIST

This Safe Work Method Statement Review Checklist is to be followed and used upon initial development of the SWMS to help ensure that all steps have been adequately taken before work commences. Think of this document as an internal audit review checklist before commencing work, and may form part of a Toolbox Talk (safety meeting) and may be used as an opportunity for education and training.

| ITEMS WHICH MUST BE INCLUDED IN THE SWMS  | COMPLETED   | COMMENTS |
|---|-------------|----------|
|   |             |          |
| The company details have been entered, including the project name and address.                      |             |          |
| All relevant personnel consulted during the development of the SWMS.                                | $\boxtimes$ |          |
| Name, signature, position and date signed of the person approving the SWMS.                         |             |          |
| Specific personnel and qualifications, experience is noted in the SWMS.                             | 7           |          |
| Provides a step-by-step process of tasks required to carry out the activity or task.                |             |          |
| Adequate risk assessment of any identified hazards has been completed.                              |             |          |
| Foreseeable hazards are identified and documented for each step.                                    | $\boxtimes$ |          |
| Any hazards listed in any site risk assessments have been added to the Sλ. S.                       | $\boxtimes$ |          |
| SWMS initial risk (IR) column as well as residual risk (RR) column completed.                       | $\boxtimes$ |          |
| Check control measures added to the SWMS are the most effective sections.                           | $\boxtimes$ |          |
| Responsible person is assigned and listed on the spiral of the spiral entry of control measures.    | $\boxtimes$ |          |
| Permit or licenses requirements specified, so in as Hot Work, Electrical Work, Work at Heights etc. | $\boxtimes$ |          |
| SWMS identifies plant and equipment to be   | $\boxtimes$ |          |
| Details of inspection checks required for any equipment lister are noted on the SWMS.               | $\boxtimes$ |          |
| Describes any mandatory qualifications, experience, ang or skills required to perform the work.     | $\boxtimes$ |          |
| Applicable personal protective equipment is selected on the SWMS.                                   | $\square$   |          |
| Reflects and documents any legislative references and/or Australian Standards.                      | $\boxtimes$ |          |
| Identifies any hazardous substances used with specific control measures in line with any SDS.       | $\boxtimes$ |          |
