| THIS SAFE WORK METHOD | STATEMENT IS APPRO | THE PC. OF THE ROJECT | |
| Under the Work Health and Safety Regulation (WHS Regulation), a person conduction the proposed work starts. | icting a business or under thing (Port U) is | required to entry of that a safe work method s | statement (SWMS) is prepared before |
| Full Name: | | | |
| Signature: | | Title: | Date: |
| Details of the person(s) responsible for ensuring implementation, monitorin | compliance of the SWN as well as re | eviews and modifications of the SWMS. | |
| Full Name: | | Title: | Phone: |
| ALL PERSONNEL PARTICIPATING IN ANY ACTIVITY ON THIS WMS | NALE OF ALL RELEVANT PERSONN EVELOPMENT AND APPROVAL OF | IEL WHO HAVE BEEN CONSULTED AND THIS SWMS | COMMUNICATED TO IN THE |
| Safety meetings or toolbox talks will be scheduled in according e with regislative requirements to first identify any site hazards and then to further take steps to either eliminate or configuration of a configuration of the steps to either eliminate or configuration. | | | |
| If an incident or a near miss occurs, all work must stude updately. Depending on the severity of the incident, a meeting will be called with all workers to amend the SWMS if required. The meeting may also be an educational opportunity. | | | |
| Any changes made to the SWMS after an incident or a near miss must be approved by the Person Conducting Business or Undertaking and communicated to all relevant personnel. | | | |
| The SWMS must be kept and be available for inspection at least until the work is completed. Where a SWMS is revised, all versions should be kept. If a notifiable incident occurs in relation to which the SWMS relates, then the SWMS must be kept for at least two years from the occurrence of the notifiable incident. | | | |

| JOB STEP | POTENTIAL HAZARDS | IR | CONTROL MEASURES | RR |
|---------------------|--|-----------------|--|------------------|
| SPECIFIC WORK STEPS | HAZARDS THAT MAY ARISE | INITIAL RISK | SPECIFIC MEASURES TO BE PUT IN PLACE TO ELIMINATE OR CONTROL THE RISKS | RESIDUAL RISK |
| 1. Preparation | Slip, trip and fall hazards, electric shock from equipment. | ЗН | Conduct a site assessment to identify and ocument all slip, trip, and fall hazards in the work area. Ensure all personnel are wearing appropring person in protective equipment (PPE) including non-slip boots and helmets. Mark and clearly communicate any known hazerts or unexer surfaces to all team members on site. Maintain a clean and organise twork area by remease unnecessary tools or materials that could cause tripping. Use cord courses or cable or neglection technologies to secure electrical cables and reduce tripping risks. Implement a violut procedure for replacing hazards immediately and ensure all staff are familiar with it. Examplement avoid procedure for use to ensure it is in good working condition and has a current test ta: Use relidue surrent envices (RCDs) for all equipment to prevent electric shocks and inspect these elevices rigula. Instrict ccess or work areas with high risk of electric shock or falls and clearly signpost these areas. Train where in safe operation and use of aerial identification equipment to minimize errors and exociated hazards. Evablish emergency procedures specifically for electrical incidents and slips, and conduct regular drills. Schedule regular breaks to avoid fatigue, ensuring that all personnel remain alert and able to maintain safety standards. | 2M |
| 2. Equipment check | Faulty equipment, incorrect equipment usage. | ЗН | Conduct a pre-inspection of all equipment to identify any visible faults or wear and tear before use. Ensure all equipment is regularly maintained according to manufacturer guidelines and service records are up-to-date. Verify that all staff members are trained in the correct use of the equipment specific to aerial eucalypt identification. Provide refresher training or updates on equipment as needed, particularly when new equipment models are introduced. Implement a tagging system to indicate whether equipment is in working order or requires maintenance. Maintain an inventory of spare parts and tools on-site for immediate repairs if minor faults are identified. Use equipment specifically designed for aerial operations and ensure it meets relevant Australian standards and regulations. Establish communication protocols to report faulty equipment immediately to supervisors and remove it from service until repaired. Develop and enforce strict operational procedures to be followed when using equipment. | 1L |

EMERGENCY RESPONSE – CALL 000 FOR EMERGENCIES

Ensure to have an Emergency Management Plan in place as well as adequate numbers of trained first aid staff with easy access to fully stocked first aid kits, rescue equipment, material safety data sheets, adequate access to emergency communication equipment and fire-fighting equipment suitable for all classes of fire and ignition sources.

SIGNATORIES OF THE SAFE WORK METHOD STATEMENT

The signed and dated personnel listed below have cooperated in the consultation and development of this Safe Work Method Statement which has been approved by the Person/s Conducting a Business or Undertaking (PCBU). In signing this Safe Work Method Statement each individual acknowledges and confirms that they have read this SWMS in full, having raised any questions for items on this Safe Work Method Statement that require clarification, and confirms that they are competent, skilled and knowledgeable for the task assigned to them. Every person acknowledges that they have received the relevant training and qualifications where required, before carrying out any work contained in this Safe Work Method Statement. By signing this Safe Work Method Statement each individual agrees to work safely, to follow any safe work instructions which are provided, and agrees to use all Personal Protective Equipment where appropriate.

SAFE WORK METHOD STATEMENT REVIEW CHECKLIST

This Safe Work Method Statement Review Checklist is to be followed and used upon initial development of the SWMS to help ensure that all steps have been adequately taken before work commences. Think of this document as an internal audit review checklist before commencing work, and may form part of a Toolbox Talk (safety meeting) and may be used as an opportunity for education and training.

| ITEMS WHICH MUST BE INCLUDED IN THE SWMS | COMPLETED | COMMENTS | |
|---|----------------|----------|--|
| | | | |
| The company details have been entered, including the project name and address. | | | |
| All relevant personnel consulted during the development of the SWMS. | \boxtimes | | |
| Name, signature, position and date signed of the person approving the SWMS. | | | |
| Specific personnel and qualifications, experience is noted in the SWMS. | 7 | | |
| Provides a step-by-step process of tasks required to carry out the activity or task. | | | |
| Adequate risk assessment of any identified hazards has been completed. | | | |
| Foreseeable hazards are identified and documented for each step. | \boxtimes | | |
| Any hazards listed in any site risk assessments have been added to the Sλ. S. | \boxtimes | | |
| SWMS initial risk (IR) column as well as residual risk (RR) column completed. | \boxtimes | | |
| Check control measures added to the SWMS are the most effective sections. | \boxtimes | | |
| Responsible person is assigned and listed on the spiral of the spiral entry of control measures. | \boxtimes | | |
| Permit or licenses requirements specified, so in as Hot Work, Electrical Work, Work at Heights etc. | \boxtimes | | |
| SWMS identifies plant and equipment to be | \boxtimes | | |
| Details of inspection checks required for any equipment lister are noted on the SWMS. | \boxtimes | | |
| Describes any mandatory qualifications, experience, ang or skills required to perform the work. | \boxtimes | | |
| Applicable personal protective equipment is selected on the SWMS. | \square | | |
| Reflects and documents any legislative references and/or Australian Standards. | \boxtimes | | |
| Identifies any hazardous substances used with specific control measures in line with any SDS. | \boxtimes | | |
