| Contact Person: | Phone: | E ail: | | | | | | |
| THIS SAFE WORK METHOD | STATEMENT IS APPROL | THE PC. OF THE ROJECT | | | | | | |
| Under the Work Health and Safety Regulation (WHS Regulation), a person conducting a business or under ting (Pt-U) is required to encreate that a safe work method statement (SWMS) is prepared before the proposed work starts. | | | | | | | | |
| Full Name: | | | | | | | | |
| Signature: | | Title: | Date: | | | | | |
| Details of the person(s) responsible for ensuring implementation, monitorin $\gamma_{\rm e}$ | compliance of the SWI, as well as re | eviews and modifications of the SWMS. | | | | | | |
| Full Name: | | Title: | Phone: | | | | | |
| ALL PERSONNEL PARTICIPATING IN ANY ACTIVITY ON THIS WMS | NAME OF ALL RELEVANT PERSONN EVELOPMENT AND APPROVAL OF | IEL WHO HAVE BEEN CONSULTED AND | COMMUNICATED TO IN THE | | | | | |
| Safety meetings or toolbox talks will be schedued in according e with egislative requirements to first identify any site hazards, and the to control to those hazards and then to further take steps to either eliminate or control leach hazard. | | | | | | | | |
| If an incident or a near miss occurs, all work must store an undiately. Depending on the severity of the incident, a meeting will be called with all workers to amend the SWMS if required. The meeting may also be an educational opportunity. | | | | | | | | |
| Any changes made to the SWMS after an incident or a near miss must be approved by the Person Conducting Business or Undertaking and communicated to all relevant personnel. | | | | | | | | |
| The SWMS must be kept and be available for inspection at least until the work is completed. Where a SWMS is revised, all versions should be kept. If a notifiable incident occurs in relation to which the SWMS relates, then the SWMS must be kept for at least two years from the occurrence of the notifiable incident. | | | | | | | | |

| 1. Preparation | Tripping over equipment, Exposure to harmful substances | ЗН | Ensure the work area is clear of unnecessary equipment to minimise tripping hazards. Arrange all tools and equipment in a destinated since away from the main walking areas. Use safety cones or barriers to cordon off the park area, clearly marking zones to prevent accidental access. Conduct a pre-work safety buring to inform all we use of potential tripping hazards and proper equipment placem. Wear approvate personal proteine equipment (PPE), including gloves, masks, and eyewear, to reduce expose to harm substances. Stops emical proteines in clearly labelled containers, away from the immediate working area, and easy they usealed properly when not in use. Implement equipment placems of equipment and workspaces to identify and rectify any safety hazards. Provid training sessions for all workers on how to handle hazardous substances and what to do in case typos re. Devolution maintain an emergency response plan specifically addressing incidents involving harmful ubstance exposure. Inept Material Safety Data Sheets (MSDS) accessible on-site for all hazardous substances used during hedge trimming activities. | 2M |
| 2. Equipment Check | Failure of equipment, Cuts from sharp objects | ЗН | Conduct thorough inspection of all equipment before use to ensure it is in good working condition. Ensure all electrical equipment is tested and tagged according to regulations. Provide regular maintenance schedules for equipment as per manufacturer guidelines. Replace any damaged or faulty equipment immediately to prevent accidents. Use only appropriate and well-maintained tools designed specifically for hedge trimming. Ensure all cutting devices are sharpened properly to reduce the risk of slipping. Train all workers on safe handling and operation of equipment prior to commencement of work. Require personal protective equipment (PPE) such as gloves, goggles, and sturdy footwear to be worn by all workers. Implement lockout/tagout procedures during equipment maintenance to avoid accidental start-up. Limit equipment usage to trained and authorised personnel only. Perform a brief function test on equipment in a controlled area before full operation begins. Ensure electrical cords are kept clear from cutting areas to prevent accidental cuts. | 2M |

| SPECIFIC WORK STEPS | HAZARDS THAT MAY ARISE INITIAL RISK | | | | | | |
| | | | - Maintain a clean and organised workspace to reduce trip hazards and equipment entanglement. | RISK | | | |
| | | | - Set up barriers or warning signs around work areas to keep unauthorised people away from potentially hazardous zones. | | | | |
| | | | - Ensure all team members wear approprian Personal Projective Equipment (PPE), including hard hats, high-visibility clothing, and steel-capped bo | | | | |
| | | | - Establish a clearly defined work zone using the ters, cones of warning signs to prevent unauthorized access. | | | | |
| | | | - Conduct a pre-start-meeting a communicate the stards and control measures to all involved personnel. | | | | |
| | | | - Use spotter to guide versiles an unachine, , ensuring they stay within designated paths and away from the work rea. | | | | |
| | | | - Limen testrial cross to the work site during hedge trimming activities to minimise the risk of being struck by oving cicles. | | | | |
| | | | - Implement offic management plans if the work area is near roads, including detours or diversions where n cess v. | | | | |
| 3. Setting up work area | Falling objects, Struck by moving vehicles | 2M | - sition vehicle and equipment cranes in a manner that minimizes reversing and the possibility of inclosures. | 1L | | | |
| | | | Regularly inspect tools and equipment to ensure they are in good working condition to prevent in functions leading to falling debris. | | | | |
| | | | Secure all cutting tools, ladders, and other materials when not in use to prevent accidental falls or movement. | | | | |
| | | | - Assign a competent person to oversee the setup process, ensuring all safety protocols are followed efficiently. | | | | |
| | | r | | * | | - Train all workers in emergency procedures, including how to respond in case of an accident involving falling objects or vehicle strikes. | |
| | | | - Set up exclusion zones below areas where work is conducted at heights to protect workers from falling objects. | | | | |
| | | | - Use signage to indicate possible falling object hazards, keeping workers alert and aware. | | | | |
| | | | - Maintain constant communication between team members through radios or hand signals to coordinate safe movements and adjustments in the work plan. | | | | |

EMERGENCY RESPONSE – CALL 000 FOR EMERGENCIES

Ensure to have an Emergency Management Plan in place as well as adequate numbers of trained first aid staff with easy access to fully stocked first aid kits, rescue equipment, material safety data sheets, adequate access to emergency communication equipment and fire-fighting equipment suitable for all classes of fire and ignition sources.

SIGNATORIES OF THE SAFE WORK METHOD STATEMENT

The signed and dated personnel listed below have cooperated in the consultation and development of this Safe Work Method Statement which has been approved by the Person/s Conducting a Business or Undertaking (PCBU). In signing this Safe Work Method Statement each individual acknowledges and confirms that they have read this SWMS in full, having raised any questions for items on this Safe Work Method Statement that require clarification, and confirms that they are competent, skilled and knowledgeable for the task assigned to them. Every person acknowledges that they have received the relevant training and qualifications where required, before carrying out any work contained in this Safe Work Method Statement. By signing this Safe Work Method Statement each individual agrees to work safely, to follow any safe work instructions which are provided, and agrees to use all Personal Protective Equipment where appropriate.

SAFE WORK METHOD STATEMENT REVIEW CHECKLIST

This Safe Work Method Statement Review Checklist is to be followed and used upon initial development of the SWMS to help ensure that all steps have been adequately taken before work commences. Think of this document as an internal audit review checklist before commencing work, and may form part of a Toolbox Talk (safety meeting) and may be used as an opportunity for education and training.

| ITEMS WHICH MUST BE INCLUDED IN THE SWMS | COMPLETED | COMMENTS |
|---|-------------|----------|
| | | |
| The company details have been entered, including the project name and address. | | |
| All relevant personnel consulted during the development of the SWMS. | \boxtimes | |
| Name, signature, position and date signed of the person approving the SWMS. | | |
| Specific personnel and qualifications, experience is noted in the SWMS. | 7 | |
| Provides a step-by-step process of tasks required to carry out the activity or task. | | |
| Adequate risk assessment of any identified hazards has been completed. | | |
| Foreseeable hazards are identified and documented for each step. | \boxtimes | |
| Any hazards listed in any site risk assessments have been added to the Sλ. S. | \boxtimes | |
| SWMS initial risk (IR) column as well as residual risk (RR) column completed. | \boxtimes | |
| Check control measures added to the SWMS are the most effective sections. | \boxtimes | |
| Responsible person is assigned and listed on the spiral of the spiral entry of control measures. | \boxtimes | |
| Permit or licenses requirements specified, so in as Hot Work, Electrical Work, Work at Heights etc. | \boxtimes | |
| SWMS identifies plant and equipment to be | \boxtimes | |
| Details of inspection checks required for any equipment lister are noted on the SWMS. | \boxtimes | |
| Describes any mandatory qualifications, experience, ang or skills required to perform the work. | \boxtimes | |
| Applicable personal protective equipment is selected on the SWMS. | \square | |
| Reflects and documents any legislative references and/or Australian Standards. | \boxtimes | |
| Identifies any hazardous substances used with specific control measures in line with any SDS. | \boxtimes | |
